

No Orphan without Education

The Prophet Muhammad (peace be upon him) said, "I and the person who looks after an orphan and provides for him, will be in Paradise like this," putting his index and middle fingers together. [Sahih Bukhari - 73:34]

Orphan children in underdeveloped countries suffer more than any other group of people. Such orphans are often supported by family or their communities, but with only the minimum they need to survive. Most of these children are very intelligent, but because of the lack of financial support and guidance, their talents and bright young minds never reach their full potential. Under our No Orphan without Education project, Hidaya Foundation supports orphans as well as their care givers by giving them essentials that they need for survival - such as food and clothing as well as school supplies and financial support so they may receive a proper education. All of the orphans that we support are monitored by Hidaya team members to ensure that they are going to school and learning and so that any obstacle preventing this process can be removed. **Hidaya Foundation is currently supporting over 3,200 orphans as well as their care givers monthly under this project.** Please donate to help us with this effort of taking the weakest of society so they may go from being reliant on others to becoming an asset for those around them.

It costs just \$15 per month to support and educate an orphan in need.

Sign up for our Automatic Monthly Donation Program or donate on our secure website using electronic check or credit card.
